Coverage for Emergency Air Ambulance Transportation by Medically Equipped fixed-wing aircraft shall be due, exclusively, to: (a) the unavailability and/or inefficiency of transport by rotary aircraft or ground transport, and (b) necessity of specialized treatment for a Serious Emergency not immediately available locally. Transport must result from the request or recommendation by a First Responder or treating Physician who deems Emergency Air Ambulance Transportation Medically Necessary. This service must be provided by a medically equipped rotary ambulance (e.g. helicopter) or Medically Equipped fixed-wing aircraft that is provided by a common air ambulance carrier
